

Molded from the real thing, then finished with our exclusive coloring process to look so authentic you might do a double take! The Stepping Stones are a set of three rocks; two smaller sizes and one larger to help dogs improve their balance and confidence as they step or hop from one to the other. Just like all of our NatureDog components, they feature heavy duty flanges to accommodate anchor bolts for permanent installations or landscape stakes/staples for more flexibility. These unique components accentuate the natural environment, and no two pieces are exactly alike.

NAT7122 STEPPING STONES
